McM Automatic Closing Metal Hinge Record Books

DISTINCTIVE FEATURES

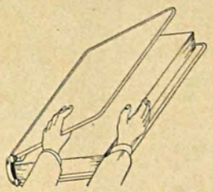

1. **McM Automatic Closing:** The closing of either cover automatically engages and locks the studs—which prevents closing the book with sheets not locked.
2. **McM All Steel Reinforced Back:** The all steel back is reinforced with steel tie plates, electrically welded. The construction of this book is such that the working parts are not affected by the hardest usage. The backbone is beaded with aluminum at top and bottom and the entire back is then padded with heavy corduroy. This eliminates the possibility of the metal back cutting through the binding material.
3. **McM Metal Rim Covers (optional):** The covers are protected against wear by Monel metal rims which are rust proof, and eliminate the necessity of canvas jackets.
4. **McM Washable Leather Covers:** Red leather books are bound in the finest quality heavy red Russia cowhide, which can be washed with water to remove dirt or ink stains. Canvas jackets are not necessary and the handsome, durable red leather with the Monel metal rim is attractive in appearance and will give maximum service.
5. **McM Metal Hinge:** This type of construction prevents the covers from sagging at the hinge and strengthens the book at the point of greatest wear. The metal hinge will wear indefinitely while fabric or leather hinges deteriorate rapidly. Should cover become damaged it is a simple matter to withdraw the hinge rod and attach new covers. This eliminates the necessity of sending the entire record to a book binder for repairs.
6. **McM Flat Opening:** The construction of this device allows a maximum flat writing surface, or reference position, at any point in the book.
7. **McM Angular Metal Fly Leaves:** These are supplied with or without attached posts. Style D (with posts attached) are used to facilitate insertion or removal of sheets when several forms are used in one book, and are furnished with screw posts for permanent sealing. Style E fly leaves (without posts attached) are furnished with separate locking posts.
8. **McM Automatic Key Lock (optional):** May be supplied with automatic lock so that closing of cover automatically locks book, requiring key to open. This feature prevents sheets from being removed or inserted, before book is sealed, except by person possessing key.
9. **McM Signatured Sheets (optional):** Furnished unless otherwise specified (without additional cost) with McM Weston signatured sheets. These sheets are Byron Weston No. 1 Linen Ledger with the McM watermark in addition to the Byron Weston watermark. Supplied only as a complete set for a McM cover. Have a distinctive signature printed from hand cut type in the binding edge. This signature is never duplicated so it is impossible to remove or insert a sheet in a McM signatured record book without the change being readily detected.

TO OPEN—
Lift Top Cover with left hand and pull out locking slide as far as possible (see cut). Always lift cover before pulling out locking slide. This operation applies to either the front or back of the book.

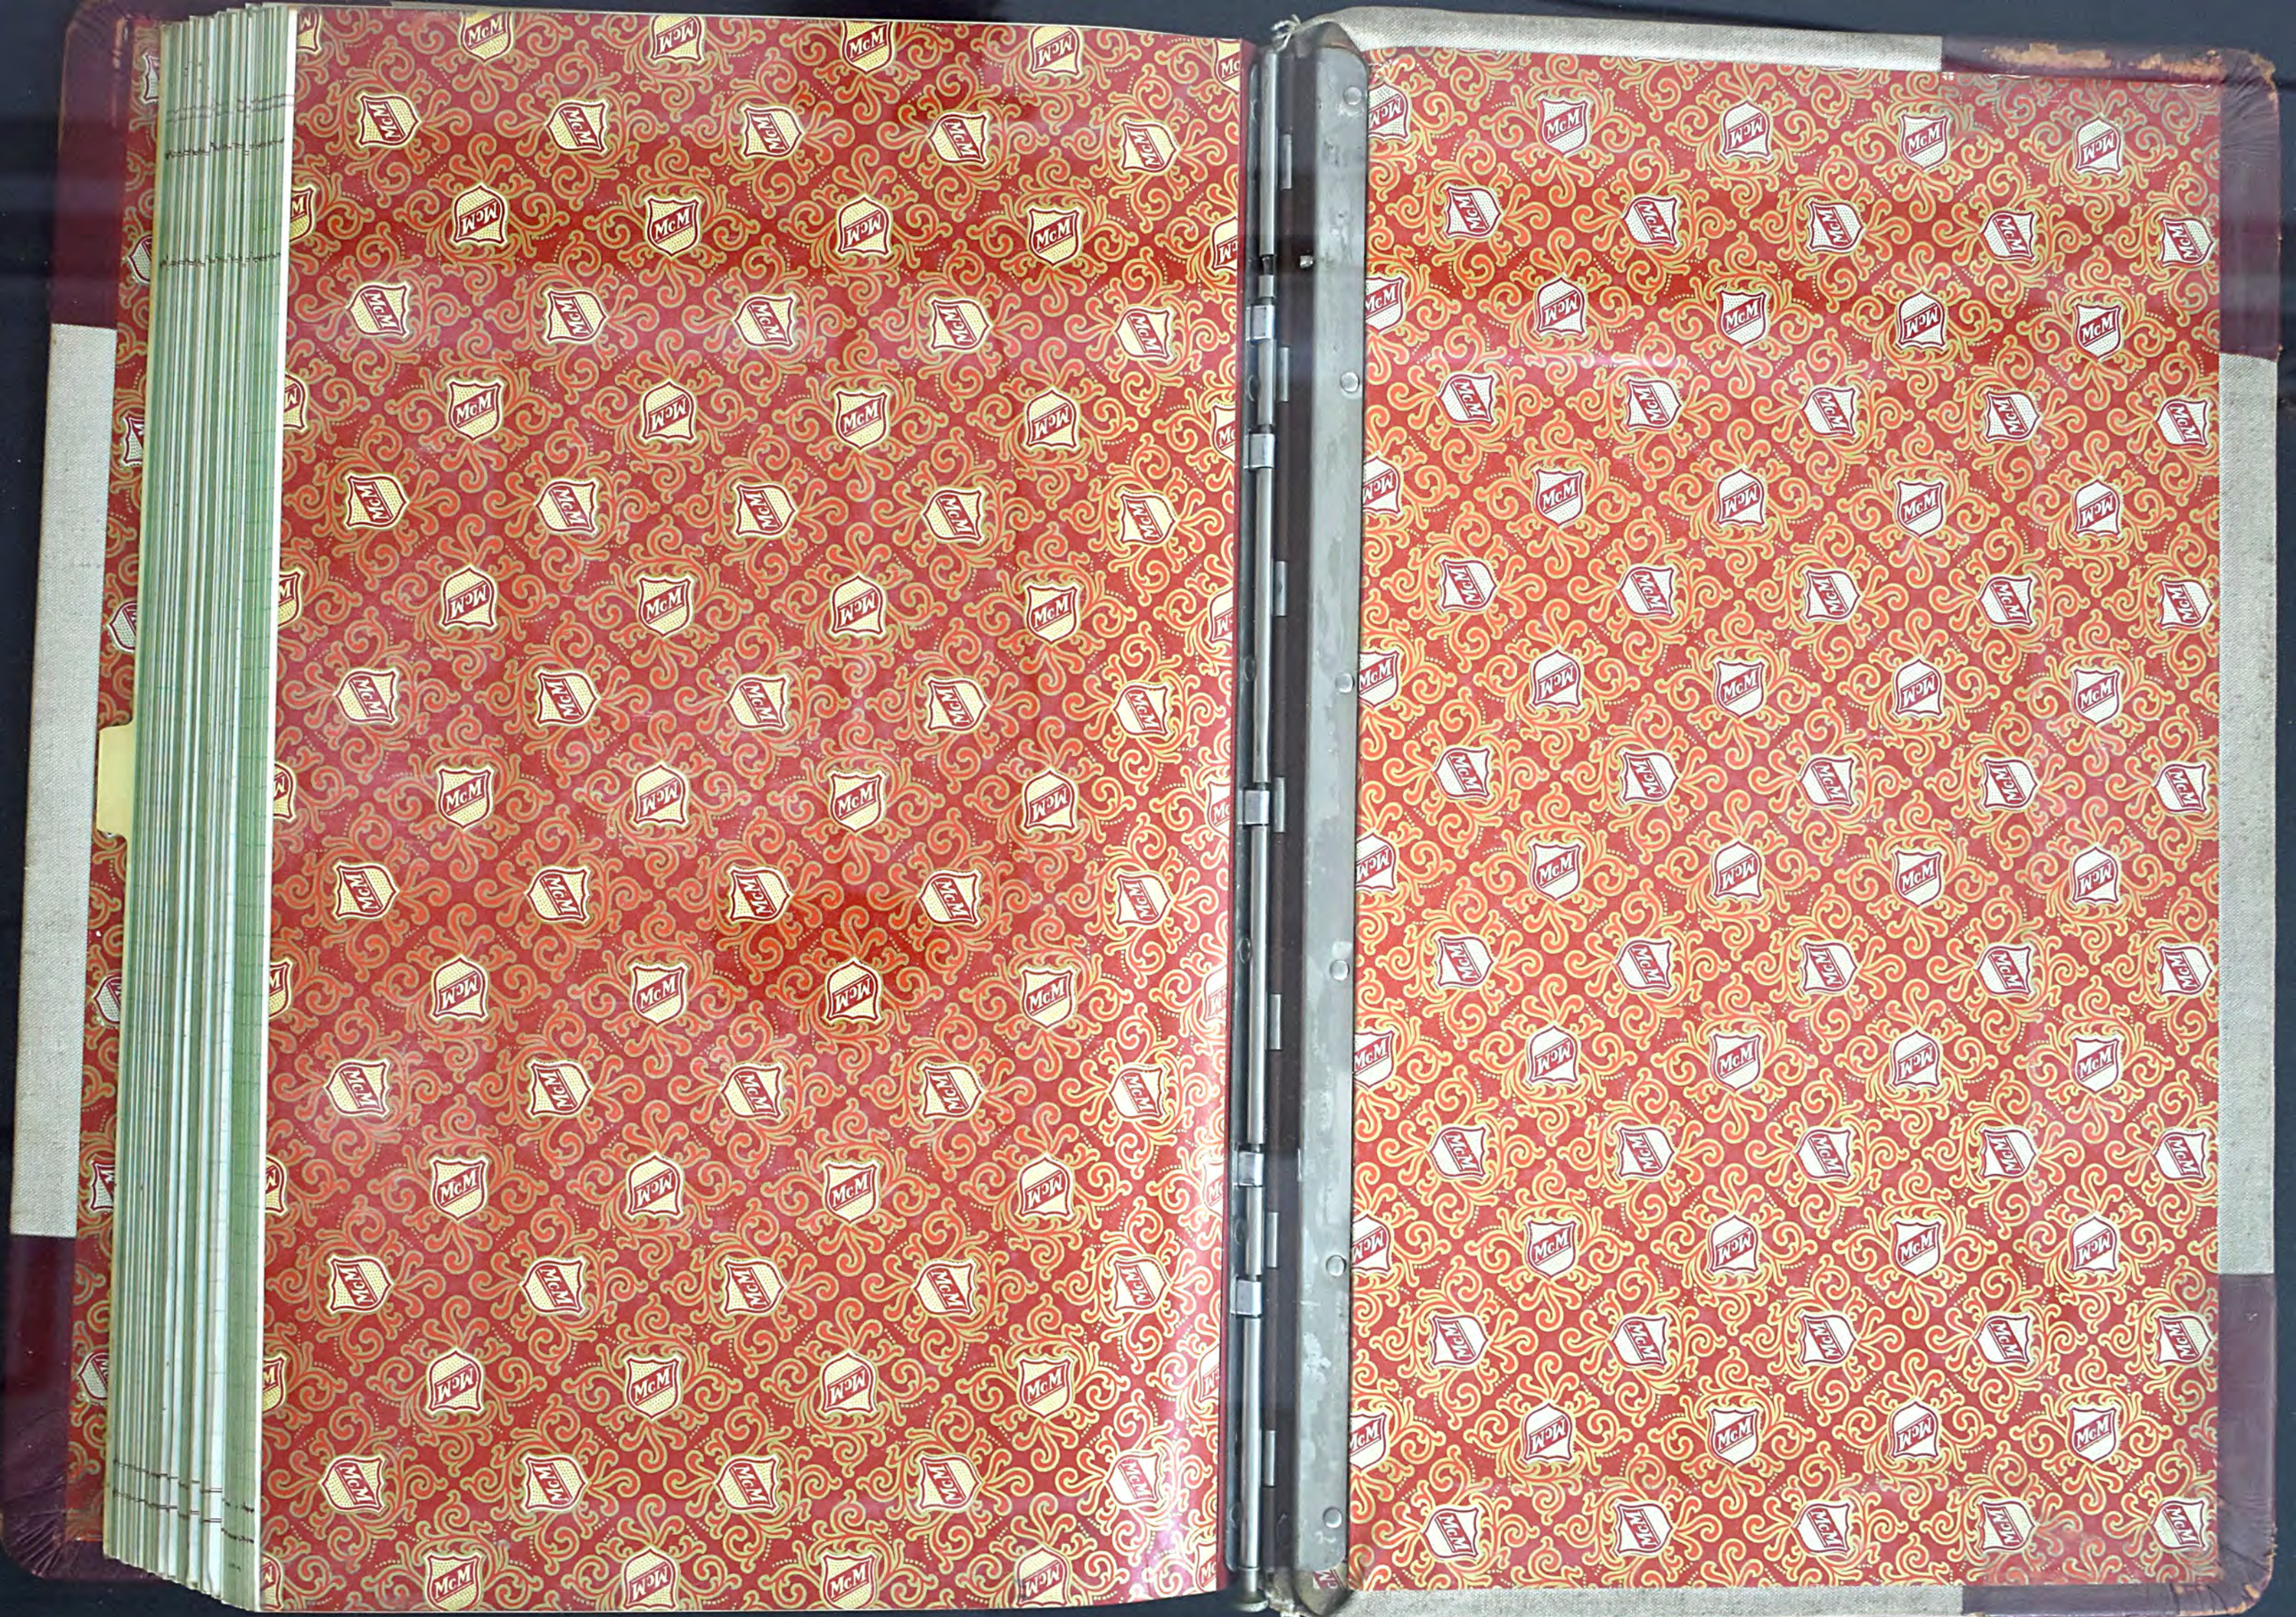

TO CLOSE—
A—With cover held upright in left hand, push the outside edge of sheets with right hand until posts are in proper positions in metal (see cut).

B—Keeping the right hand on the outside edge of the sheets close cover (see cut). By closing the cover the sheets are locked in the book automatically.
